Statement of authorship

S.V. and L.B. designed the project. P.B.H. gave inputs on palaeoclimate data usage. L.B. ran the simulations, performed the analyses, produced the figures and wrote the manuscript with inputs from all co-authors.

Data availability statement

R scripts for generating, analysing and visualising the data are available at https://github.com/Buffan3369/GABI-gen3sis.git. Simulation landscapes and config files are available at https://doi.org/10.6084/m9.figshare.31160704.

Keywords

Biotic Interchange; Eco-evolutionary simulations; Macroecology; Palaeoclimate

Additional data

- *running title* : Palaeoclimate and the Great American Interchange
- *article type*: Letter
- *abstract word count*: 150
- *main text word count*: 5000
- *number of references*: 57
- *number of figures*: 4
